Success!

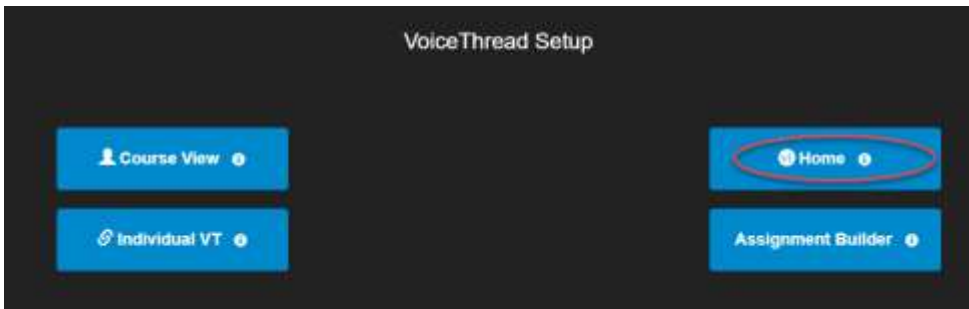

The tool provider content was added to your course. Close this window and refresh your course to view the new content.

Click on the link (below) and you'll be taken to all Voicethreads you've created for **this course**.

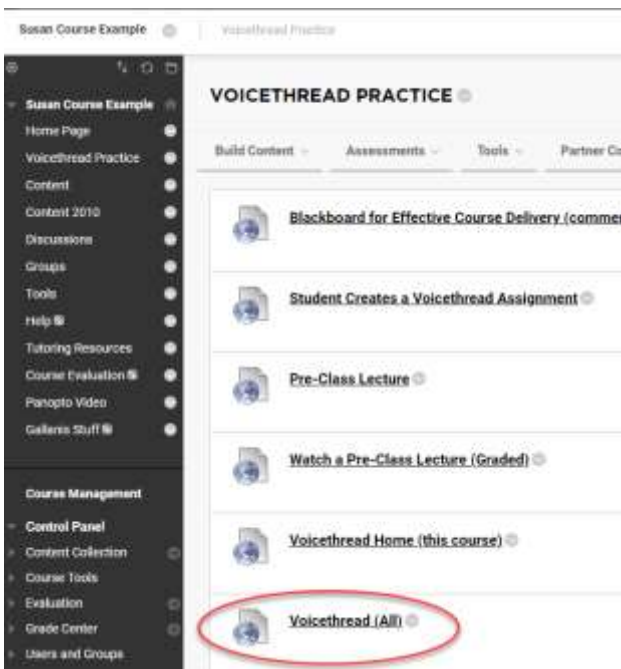

The screenshot shows a Blackboard course page titled "VOICETHREAD PRACTICE". On the left is a navigation menu with "Susan Course Example" and "Course Management" sections. The main content area has tabs for "Build Content", "Assessments", and "Tools". Below these tabs is a list of Voicethread assignments, each with a globe icon and a dropdown arrow. The items are: "Blackboard for Effective Course Deliver", "Student Creates a Voicethread Assignm", "Pre-Class Lecture", "Watch a Pre-Class Lecture (Graded)", "Voicethread Home (this course)", and "Voicethread Home (this course)". The last item is circled in red.

You can create a link to ALL your Voicethreads in your account. Probably don't want students to see this.

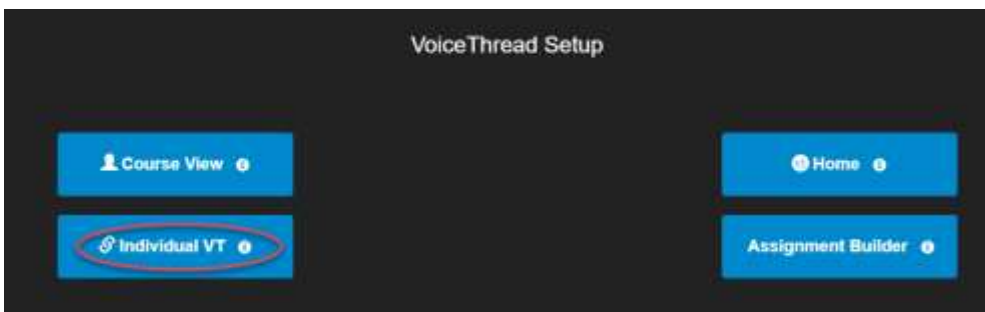

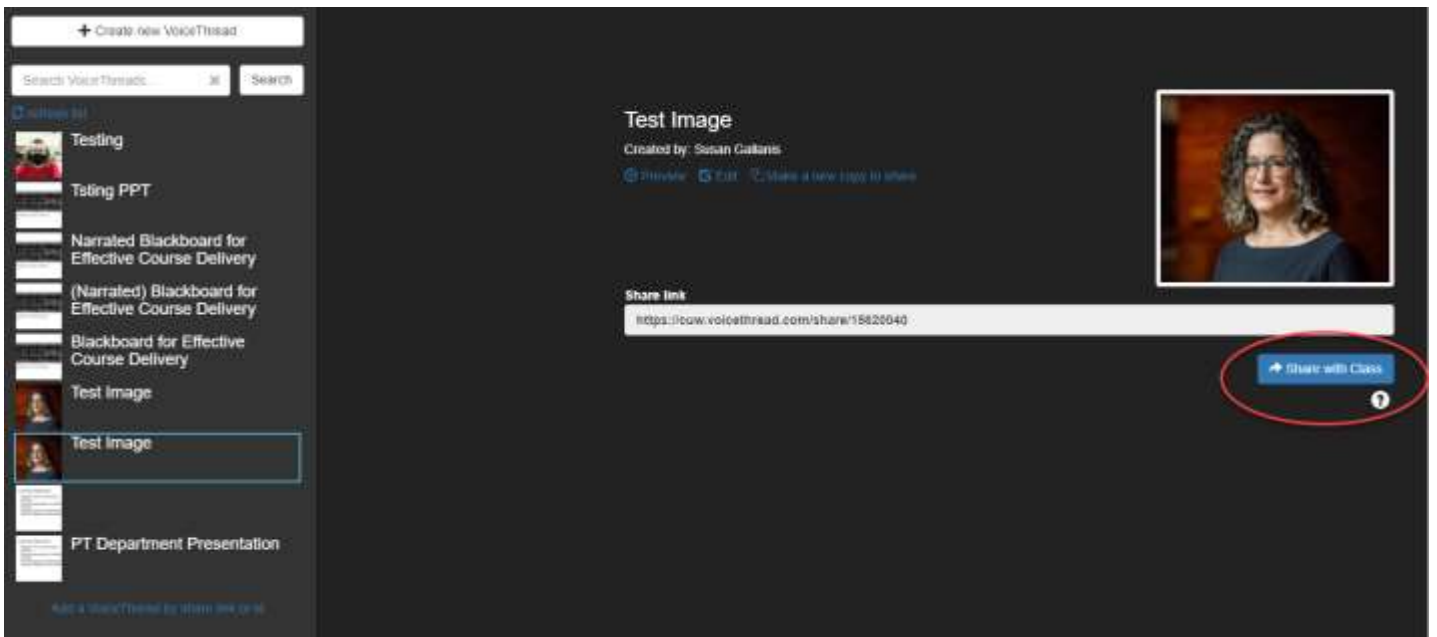

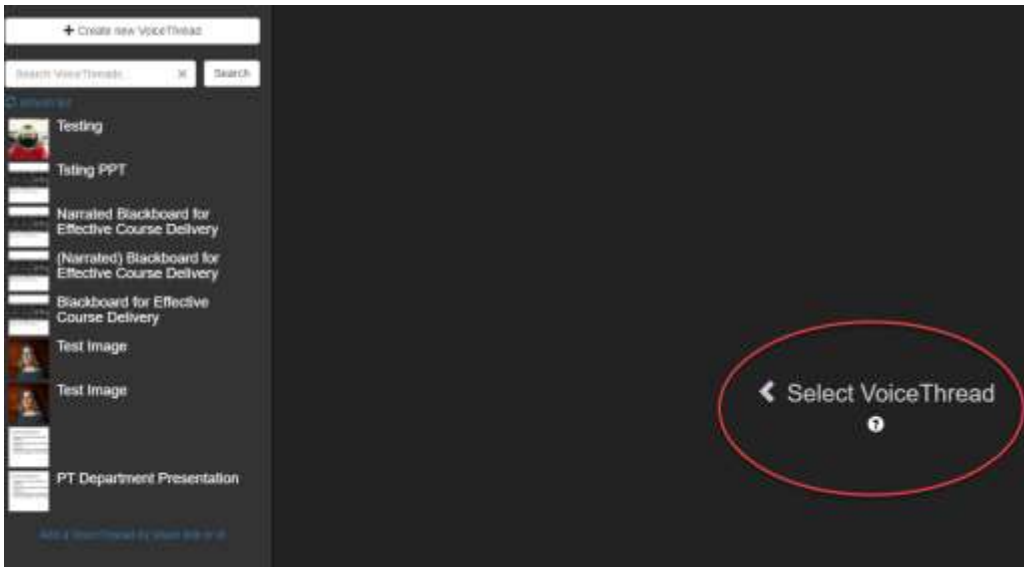

Activity name:

Refresh your Blackboard page and you'll see the link to **ALL Voicethreads**. Probably don't want students to see this.

Individual VT: Displays a single Voicethread in your course. Students can make comments on this. **It is not graded.**

Activity name:

Activity: Name that Face!

Save

Assignment Builder:

- Three options for creating **GRADED** assignments.
- Once created, automatically creates a Grade Center Column:
 - 100 points (default, can be changed)
 - No Category (default, can be changed)
- Grade is entered in Voicethread
 - MUST enter grade in Voicethread as a percentage (not raw score)

Comments required 

Create Assignment

- and share with class
- moderate comments
- Allow students to resubmit assignment 

Select a type of assignment

Create a VoiceThread

Submit a Comment

Watch a VoiceThread

This VoiceThread must have voice over/comments (not just an image or PPT)

Students must watch the entire VoiceThread (can't skip ahead)

Students are not required to comment, but can ask that they do as part of the assignment

This is GRADED
