

How to View User Statistics

User statistics shows all grades for one student

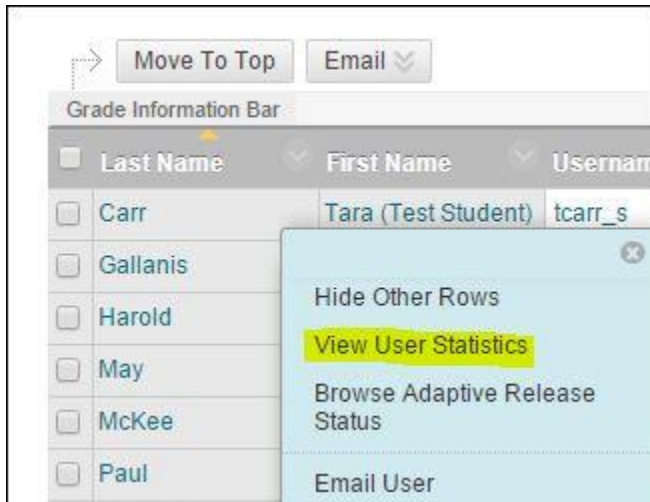

1. In your course, click on Grade Center, then Full Grade Center.

2. To view a user's statistics hover over their last name and click on the arrow that appears at the right side of the box.

- From the drop down menu, select "View User Statistics"

- The page will show all assignments and grades for the selected student. To view another student, click the arrow next to the "User" name. Alternatively, in the top right corner there is a drop down menu where you can select a specific student, once a student is selected, click "Go" in order to see their user statistics.

User Statistics

Statistical information related to student performance and sorted by Category is available from any Grade Center View. By default, statistics for the full Grade Center are displayed from every Grade Center View. To see statistics for a custom view, set the Current View of the Grade Center to the custom view. Next, select the desired student, click **User Statistics**, and then check the box labeled **Show statistics for current view only**.
