Blackboard More Tools: Thursday March 3, 7:00-8:00pm. Join via webinar to Mequon. Register [here](#).

NEW! Black Holes, Gravity Waves, and Lasers led by Paul Strycker Friday March 4, 1:00-2:00pm via video conference to Science 102 from the Mequon campus..

After a 100-year wait for technology to catch up with one of Einstein's long-debated predictions, gravity waves are in the science headlines! But what are they? Why do black holes create them, and how can lasers detect them? Information carried by gravity waves is a new window into the universe. Join us to discuss what it has already revealed. Register [here](#).

March 7 — 9

Blackboard Assessments & Rubrics: Monday March 7, 2:00-3:00pm. Join via webinar to the Mequon campus. Register [here](#).

“Now to him who is able to do immeasurably more than all we ask or imagine, according to his power that is at work with us, to him be glory in the church and in Christ Jesus throughout all generations, for ever and ever! Amen.”

Ephesians 3:20-21
