Ann Arbor Campus

OCTOBER 2015

Coordinator for Teaching & Learning Programs in Ann Arbor:
Jeff Schwehm in Science 106A, x7420

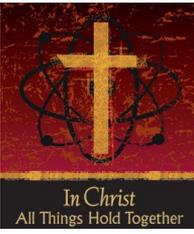

Tuesday October 13, 3:30-4:30pm in SCI 101

Exploring Experiential Learning Platforms in the Classroom led by Joey-Lynn Bialkowski and Lisa Johnson.

Click [here](#) to register.

Wednesday October 14, 3:30-4:30pm: Next Faith and Learning Session

In Christ All Things Hold Together is a new LCMS publication addressing the intersection of science and Christian Theology. Drawing from fields including history and philosophy it investigates how science and theology can be cohesively aligned while seeking to understand God's creation. Our interdisciplinary discussions will be led by faculty in theology (Phil Penhalegon) and the natural sciences (Jim Refenes) but will be enriched by participants from any discipline interested in studying the world within a worldview that is both faithful and intellectually meaningful. Meet in SCI 101.

2015 Faculty Scholarship Day is Monday, October 19

Please come to the Terrace Room (AL114) on the Mequon campus to view posters, speak with scholars, and listen to presentations. Our colleagues are doing impressive work across a variety of disciplines. Refreshments will be available at 11:00.

This year we will have both a poster session and presentations to highlight faculty research and scholarship. Posters will be available from 8:00am to 5:00pm, and the faculty authors will be present to discuss their posters between 11:00am-1:00pm. Presentations will take place in the Terrace Room between 1:00 and 4:30pm.

Presentation schedule:

1:00 Dr. Van Mobley, History/Economics
1:30 Dr. Ann McDonald, Natural Science
2:00 Dr. Tom Wilmeth, English
2:30 Prof. Mary Beth Geiser, Physical Therapy
3:00 Dr. Jeff Potratz, Natural Science
3:30 Dr. Brian Gunderson, Modern Languages
4:00 Dr. Will Massey, Occupational Therapy

Panopto News

Panopto recently updated: If you use the Panopto tool in your Blackboard course, you might have noticed the tool is no longer available. This is due to some recent Panopto updates. Click [this link](#) for a video that explains how to fix the issue.

Panopto recordings to be archived: Due to the high utilization of Panopto, academic recordings will need to be archived after three semesters. Folders that are four semesters or older will be deleted from the Panopto server after each semester. For example, a folder with term code 201410 (Fall 2013) will be removed from Panopto at the start of the 201610 (Fall 2015) term. There are many folders that are unlabeled, these will be removed as well if they are more than four semesters old.

If your current classes require videos from older terms it will be the responsibility of the folder owner to move the recordings from those folders slated for deletion. [Click here](#) for instructions to move Panopto videos to a current folder (in Panopto).

If you have any questions about moving videos or this policy, please feel free to email Rob Erbes at robert.erbes@cuw.edu.

October Blackboard Learn Sessions

All sessions are 1:00-2:00pm Eastern Time. Attend via webinar (sessions are live on the Mequon campus). Below are dates and session descriptions. Click [here](#) to register for all sessions.

- ◇ **More Tools—Monday October 12** includes: Embedding YouTube videos, discussion forums, SafeAssignment (direct submissions), adding Panopto tool, and communication tools.
- ◇ **Assessments and Rubrics—Thursday October 29:** covers 4 question types, question pools, and creating online rubrics.
- ◇ **G3: Grade Center review, Group Assignments, Grading Tips—Monday October 19:**
- ◇ **Moving your course from Angel to Blackboard Learn—Thursday October 15** and a repeat session on **Monday October 26**. This is a hands on session to help you move course content from Angel to Blackboard. Online tests cannot be moved this way, but we can share some resources to help you do this, if needed.
