

Add a Module to the Home Page of your Course

NOTE: If you plan to copy your course after adding a Module to the Home Page, the Module will NOT copy to the new course. If you want the Module to copy along with other course materials, it is recommended you follow the procedure “Add a Module Page and Add a Module to the Page”.

1. In your course, click on the Home Page. Click on Add Course Module

2. Scroll module titles, use the Search box, or browse modules by category. To add the desired module click Add.

3. Click on the Home Page link and you'll see the module has been added.
