

Beginning July 2022 when you log into Blackboard, you'll see an updated layout on the My Institution Page.

The main changes you see will include: Tabs along the left side instead of across the top; easy to use view for activities and grades; the Communities tab will be labeled as Organizations; and a more streamlined way to view your courses by term.

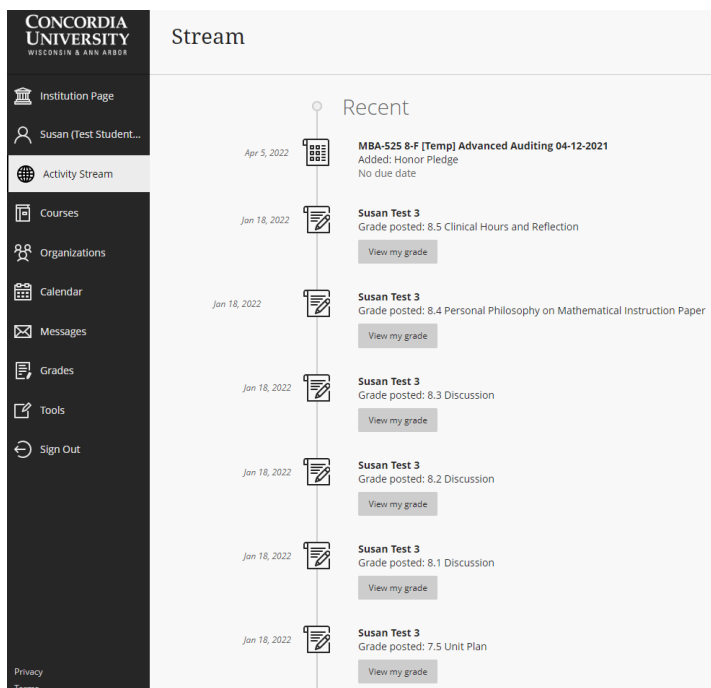

All of these changes contribute to higher usability and accessibility across various devices. This update will not change the look of your courses.

Here's a preview of the new look:

Tabs along left side instead of across the top:
